

August 1, 2019

Greetings Volunteer Team,

I have highlighted Newfields' greatest and most vital needs for the following two weeks. If you can volunteer, please sign up through the Volunteer Information Center at <https://www.volgistics.com/ex/portal.dll/?FROM=27483> or contact the Volunteerism Department by emailing volunteer@discovernewfields.org to get signed up today! Items listed in **RED** are the highest priority needs for the institution.

Special Events: Day of Flight

- **Saturday, August 3**
 - **8:30 – 12:00 pm: 1 Volunteer Needed**
 - **8:30 – 11:00 am: 1 Volunteer Needed**
 - **9:30 – 12:00 pm: 1 Volunteer Needed**

DETAILS: This is your chance to have an in-depth encounter with native birds and pollinators—and to help Newfields do its part to understand and care for its flora and fauna. You'll see the delicate wings of a hummingbird, the flight of a raptor, and the wingspan of the magnificent hawk. From the birds, you'll move to the bees by learning how a hive is managed—and how a butterfly goes through its life cycle. We will also be catching, banding, and releasing both hummingbirds and song birds to check their health and gain more information about their migration patterns. Before the summer winds down, take the opportunity to get outside.

Chris Morehead

Assistant Director of Volunteerism and Community Engagement
